

Temporary accommodation for crisis areas

SL Rasch has developed the first mobile city in the world for over 2 Mn inhabitants. We therefore have fundamental knowledge and experience in this field. Our tent cities provide high quality temporary housing solutions with the required integral infrastructure to be used at any crisis area. There

is also the possibility to set up a central cooking station / social area. With the help of our PEDflow simulation, we can simulate pedestrian flows from a number of 500 tents and ensure safety, comfort and hygiene for the people.

Tent size	64 qm (8 x 8 m)
Basic grid	4 x 4 m
Sub-divisions	1-4 rooms
Number of beds	10-16
Equipment	Lamp, charging possibility
Erection time (steel structure, roof, walls)	4-5 hours

Sanitary Unit

The tents can be divided in max. 4 sections, or combined with each other to form larger units. The basic grid and tent size are individually adaptable. The construction withstands adverse environmental conditions. Walls and roof are insulated, fire retardend and rainproof.

Our sanitary units based on a container module can be stationed along with power and fresh water supply.
